

Three steps to annotate and memorize PDF files

1. Upload PDF file

2. Tag the slide using the marker

Solar panel break-even

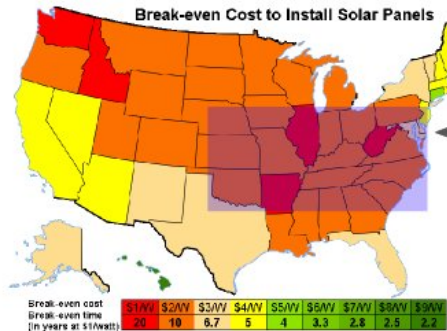

The marker can be used to tag parts of the PDF file and relate them to questions, remarks and discussions as before.

UNI The break-even costs are still quite high

Facts on break-even

- Break-even costs vary from state to state
- Installation of solar panel still quite expensive
- Still less than 0.2%

Tags relate any part of the PDF file with the information on the side margin.

Handout

2/20

3. Memorize the PDF file using your tags

It is **not necessary** to copy and paste from PDF files. You can simply import them into note folders. They will look exactly the same.
